PETITION TO RESET PERIOD FOR RESPONSE
OFFICE ACTION NOT RECEIVED VIA U.S. POSTAL SERVICE

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

in the above-identified application, Applicant hereby petitions to reset the period of response to the USPTO action indicated to have been mailed on August 21, 2006, on the basis that the Office Action was not received via U.S. Postal Service.

The undersigned attorney of record hereby states that the above-mentioned Office Action dated August 21, 2006, was not received. During a routine search of the online record for the above-identified application performed in PAIR on January 5, 2007, it was discovered that an Office Action was issued by the Examiner on August 21, 2006. A search of the file jacket and the docket records indicates that this Office Action was not received via U.S. Postal Service.

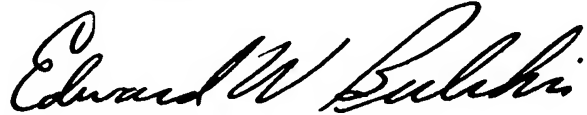

Enclosed herewith is a statement setting forth the date of receipt of the USPTO Office Action and explaining how the evidence being presented establishes the date of receipt of the USPTO action at the correspondence address.

A substantial portion of the response period set in the Office Action had elapsed on the date of receipt of the Office Action. This petition is being filed within two weeks of discovery of the Office Action. It is respectfully requested that the period of time for response be reset.

The petition fee of \$130.00 as required by 37 C.F.R. § 1.17(h) is enclosed herewith. The Commissioner is authorized to charge any other fees which may be required, or credit any overpayment to Deposit Account No. 50-1266. A duplicate copy of this sheet is enclosed.

Respectfully submitted,

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450

Sir:

I, Phoebe Pogson, Intellectual Property Supervisor for the Seattle office of Dorsey and Whitney, hereby state that the U.S. Patent and Trademark Office Action dated August 21, 2006, as shown on the first page thereof which accompanies this petition, was printed from the U.S. Patent and Trademark Office electronic file wrapper, available through the PAIR system, on January 5, 2007. I further state that the Action was not received at the mailing address via U.S. Postal Service.

During a routine search of the online record for the above-identified application performed in PAIR on January 5, 2007, it was discovered that an Office Action was issued by the Examiner on August 21, 2006. A search of the file jacket and the docket records indicates that this Office Action was not received via U.S. Postal Service.

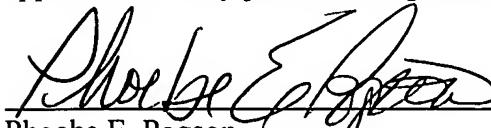

The evidence showing non-receipt of the USPTO action at the correspondence address as outlined below is attached herewith.

1) A copy of the mail log indicating incoming mail received from the U.S. Patent and Trademark Office during the timeframe that the above-mentioned Office Action would have been received. These records fail to disclose the receipt of the above-mentioned Office Action.

2) A copy of the docket record for the above-identified application showing, on page 1, the application serial number and, on page 2, that the Final Office Action dated August 21, 2006, was entered into this docket record on January 5, 2007.

It is the policy of this practice that all incoming mail from the U.S. Patent and Trademark Office is hand carried from the mail room to the department case assistant, who opens the mail and makes an entry in the mail log for each piece of mail received showing the date received, our docket number, and indicating the type of communication received. Once the mail has been entered into the log, it is hand carried to our docketing department where each piece of mail is reviewed and entered into our docket system. If the above-noted Office Action had been received by our office there would have been an entry in the mail log sometime shortly after August 21, 2006, showing that the Action had been received. Additionally, if the Action had been received, the mailing date of the Action would have been entered into our docket system sometime shortly after August 21, 2006, rather than on January 5, 2007.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
